

Our Future – Phoenix Academy

As Phoenix Academy and Future Academies seek to build on recent successes achieved by students and staff, including being rated 'Good' by Ofsted, we are looking at how to enhance the learning environment on the site.

We are keen to hear thoughts from all of those involved in the academy, the wider community and our local neighbours to understand how you think the school building itself can be improved, as well as provide additional benefits that we can experience as a community.

We are hosting a public consultation event to set out initial ideas and challenges, as well as outline improvements that we are seeking to achieve across the site to maintain the delivery of excellent education.

Please come along and let us know your any ideas that you may have;

3pm – 8pm

Thursday 11th July

Location: 6th Form Foyer
